#### 4. Summary of Action

Table 3 below provides a summary of the actions, categories, and objectives.

Table 3: Summary of action

Number	Action
MITI-1	<p><b>Reforestation of Forest on Degraded Land</b></p> <p>Under the plan, 960,000 hectares of degraded forest will be restored by 2030. This includes the restoration of natural forest, plantation forest, and agroforestry. The plan also includes the establishment of new forest areas and the improvement of existing forest areas.</p>
MITI-2	<p><b>Geothermal</b></p> <p>Develop 2,275 MW of geothermal power by 2030. This includes the exploration, development, and construction of geothermal power plants. The plan also includes the improvement of existing geothermal power plants and the establishment of new geothermal power areas.</p>
MITI-3	<p><b>Reforestation of Degraded Forest</b></p> <p>Under the plan, 240,000 hectares of degraded forest will be restored by 2030. This includes the restoration of natural forest, plantation forest, and agroforestry. The plan also includes the establishment of new forest areas and the improvement of existing forest areas.</p>
MITI-4	<p><b>Improved Cookstoves and LPG Cookstoves</b></p> <p>Under the plan, 1 million improved cookstoves and 1 million LPG cookstoves will be distributed by 2030. This includes the production, distribution, and installation of cookstoves. The plan also includes the improvement of existing cookstoves and the establishment of new cookstove areas.</p>
MITI-5	<p><b>Agroforestry</b></p> <p>Under the plan, 281,000 hectares of agroforestry will be established by 2030. This includes the establishment of new agroforestry areas and the improvement of existing agroforestry areas. The plan also includes the development of agroforestry policies and the establishment of agroforestry demonstration areas.</p>
MITI-6	<p><b>Ban Rapid Transit and Light Rail Corridor</b></p> <p>Implement the Ban Rapid Transit and Light Rail Corridor project. This includes the construction of the transit system and the establishment of the light rail corridor. The plan also includes the development of transit policies and the establishment of transit demonstration areas.</p>
MITI-7	<p><b>Development of GHG in Energy and Improvement of Emission Data</b></p> <p>Develop 1 million tonnes of GHG in energy and improve emission data by 2030. This includes the development of GHG in energy and the improvement of emission data. The plan also includes the development of GHG in energy policies and the establishment of GHG in energy demonstration areas.</p>
MITI-8	<p><b>Measuring, Reporting on and Monitoring Forest Emission and Link</b></p> <p>Under the plan, 1 million tonnes of forest emission will be measured, reported on, and monitored by 2030. This includes the measurement, reporting on, and monitoring of forest emission. The plan also includes the development of forest emission policies and the establishment of forest emission demonstration areas.</p>
MITI-9	<p><b>Mainstreaming of Low-carbon Development Options in Planning Process</b></p> <p>Under the plan, 1 million tonnes of low-carbon development options will be mainstreamed in the planning process by 2030. This includes the mainstreaming of low-carbon development options in the planning process. The plan also includes the development of low-carbon development options policies and the establishment of low-carbon development options demonstration areas.</p>

<b>Action #1: RESTORATION OF FORESTS ON DEGRADED LANDS</b>	<b>Action Reference Number: MITI-1</b>
<p><b>Action Summary</b>          Restore forest on 960,000 hectares of degraded land by 2030 to absorb 32.6 M CO<sub>2</sub>e. By 2030, Kenya will have a National REDD+ strategy, which will be a key component of the National Climate Change Action Plan (NCCAP) and the National Adaptation Plan (NAP). The strategy will be developed in consultation with the relevant stakeholders, including the private sector, academia, and civil society. The strategy will be developed in consultation with the relevant stakeholders, including the private sector, academia, and civil society. It mentions the goal of absorbing 6.06 million tonnes of CO<sub>2</sub>e. The text is partially obscured by noise.</p>	
<p><b>Area of relevance</b>          Specific areas and locations where the action is implemented, such as Wa and Sa. It also mentions a target of 2.2 F.</p>	
<p><b>Current status</b>          A detailed description of the current status of the degraded forest, including the extent of degradation and the need for reforestation. It mentions various stakeholders and the role of the government.</p>	
<p><b>Lead Agency to take the lead in Action for reforestation</b>          The lead agency for the action is identified as the Ministry of Natural Resources and Environmental Conservation (MEMR).</p>	
<p><b>Stakeholder support required to take the action for reforestation</b>          The action requires support from various stakeholders, including the government, private sector, and local communities.</p>	
<p><b>Indicator timeframe - Q c</b>          The indicator timeframe is set for the year 2015.</p>	
<p><b>Collateral activities in the Action in Kenyan Shilling</b>          The action is implemented in Kenyan Shilling, with a target of 48.61 billion Shilling.</p>	
<p><b>Immediate steps</b></p> <ol style="list-style-type: none"> <li>Step 1: Submit UNFCCC NAMA action plan to the government by January 2013.</li> <li>Step 2: Develop a NAMA action plan and submit it to the government by January 2013.</li> <li>Step 3: Submit NAMA action plan to UNFCCC, and submit it to the government by January 2014.</li> <li>Step 4: Finalize NAMA action plan and submit it to the government by December 2014.</li> </ol>	

<b>Action#4: IMPROVED COOKSTOVES AND LPG COOKSTOVES</b>	<b>Action Reference Number: MITI-4</b>
<p><b>Action Summary: Programme of support for the use of improved cookstoves and of LPG cookstoves to abate 7.3 M CO<sub>2</sub>e by 2030.</b></p> <p>The programme aims to reduce greenhouse gas emissions from household cooking by promoting the use of improved cookstoves (ICS) and LPG cookstoves. It targets 16 million people, primarily in rural areas. The programme will provide technical assistance, training, and financing to support the adoption of ICS and LPG cookstoves. It will also support the development of a sustainable market for ICS and LPG cookstoves. The programme is implemented by the Ministry of Energy and Petroleum, in collaboration with the Ministry of Environment and Forestry, and the Ministry of Health. The programme is funded by the Government of Kenya and the World Bank. The programme is expected to be completed by 2030.</p>	
<p><b>Area of relevance</b></p> <p>Scopes: 1. Access to R and D; 2. Energy, Water, and Sanitation; 3. Pollution and Environmental Science; 4. Key activities include the provision of technical assistance, training, and financing to support the adoption of ICS and LPG cookstoves. The programme is implemented by the Ministry of Energy and Petroleum, in collaboration with the Ministry of Environment and Forestry, and the Ministry of Health.</p>	
<p><b>Lead Agency or stakeholder Action for award</b></p> <p>The Ministry of Energy and Petroleum is the lead agency for the programme. The Ministry of Environment and Forestry and the Ministry of Health are also involved in the programme. The programme is funded by the Government of Kenya and the World Bank.</p>	
<p><b>Stakeholder support required to make the action for award</b></p> <p>The programme requires support from various stakeholders, including the Ministry of Energy and Petroleum, the Ministry of Environment and Forestry, the Ministry of Health, the Ministry of Finance, the Ministry of Education, Science and Technology, and the Ministry of Labour and Social Security. The programme also requires support from the private sector, civil society organizations, and the community.</p>	
<p><b>Indication of timeframe</b></p> <p>The programme is expected to be completed by 2030. The programme is implemented in phases, with the first phase starting in 2013 and the second phase starting in 2015.</p>	
<p><b>Cost allocation in the Action in Kenyan Shilling</b></p> <p>The total cost of the programme is estimated to be KSh 20 billion. The cost is allocated as follows: KSh 10 billion for the provision of technical assistance, training, and financing; KSh 5 billion for the development of a sustainable market for ICS and LPG cookstoves; and KSh 5 billion for the implementation of the programme.</p>	
<p><b>Immediate impact</b></p> <ol style="list-style-type: none"> <li>1. By 2013, the programme is expected to have reached 1 million people, primarily in rural areas. <b>Action #8: CAPACITY BUILDING FOR MEASURING, REPORTING ON AND MONITORING FORESTRY EMISSIONS AND SINKS</b>	<b>Action Reference Number: MITI-8</b>
<b>Action Summary</b> Develop a national forest inventory, forest reference scenario, and a monitoring and reporting system that allow for transparent accounting of emissions and removals in the forest and land-use sector. Develop a national REDD+ action plan, including a REDD+ RPA (Policies, Procedures, and Arrangements) and a REDD+ MTR (Measurement, Reporting, and Verification) system. The plan should be consistent with the UNFCCC (Paris Agreement, 2015) and the Kyoto Protocol (1997). The plan should also be consistent with the UNFCCC (Paris Agreement, 2015) and the Kyoto Protocol (1997). The plan should also be consistent with the UNFCCC (Paris Agreement, 2015) and the Kyoto Protocol (1997).
